**Structural Adjustment: The SAPRI Report** The Structural Adjustment Participatory Review International Network (SAPRIN)

This book is the most comprehensive, real-life assessment to date of the impacts of the liberalisation, deregulation, privatisation and austerity that constitute structural adjustment. It is the result of a unique five year collaboration among citizens' groups, developing country governments, and the World Bank itself. Its authors, the members of the Structural Adjustment Participatory Review International Network (SAPRIN), reveal the practical consequences for manufacturing, small enterprise, wages and conditions, social services, health, education, food security, poverty and inequality. The stark conclusion emerges: if there is to be any hope for meaningful development, structural adjustment and neoliberal economics must be jettisoned.
