## **The Great Turning: From Empire to Earth Community (BK Currents)** David C Korten

Although the issues addressed in The Great Turning are global and universal, I have chosen to focus my analysis on the United States. It is the nation among all others that is most challenged by the imperatives of the Great Turning. Few other nations are so accustomed to living beyond their own means, so imbued with a sense of special virtue and entitlement, or so burdened by a political leadership as out of touch with global reality and as incapable of accepting responsibility for the consequences of its actions. Because of its global presence, whether the United States responds to the imperatives with the logic of Empire or the logic of Earth Community is likely to have far-reaching consequences for all nations. Furthermore, the United States is the nation of my birth, the nation I know best and love most, and the nation for whose role in the world I feel most responsible.
