No oven? No worries!

Every night is takeout night no more!

This cookbook is full of tried and tested recipes for delicious sounding (and hopefully delicious tasting) meals such as risotto, quiche, cheesy broccoli and other meals you would never have thought could be made in a microwave.

Inside this book you will find 40 microwave recipes, including ideas for breakfast, lunch, dinner, dessert, and of course snacks.

Our Promises:

Few ingredients

50% of the recipes in this book have less than 4 ingredients*

We don't take anything for granted!

We don't assume that you know what funny sounding words like broth, simmer and broil entail. In fact, we don't assume anything about your cooking knowledge at all (you do have the microwave plugged in, right?). We walk you through the whole recipe, not skipping any steps, in language you'll be able to understand.

No bullshit ingredients

We know the truth: if you need a book full of things that can be cooked with just a microwave, chances are that you don't have

Chances are that

These recipes have simple ingredients, not exotic stuff you need to go to specialist shops to find

From quickie 5 and 10 minute meals to gourmet spectaculars that take more than 30 minutes... and still require just a microwave.

Chock full of quick and easy nutritious meals, *Microwave Goddess* is the lifeblood of students and bachelors everywhere.

*excluding salt and pepper... what kind of barbarian doesn't have salt and pepper?
