## **An Economist in the Real World: The Art of Policymaking in India (MIT Press) Kaushik Basu**

In December 2009, the economist Kaushik Basu left the rarefied world of academic research for the nuts and bolts of policymaking. Appointed by the then Prime Minister of India, Manmohan Singh, to be chief economic adviser (CEA) to the Government of India, Basu -- a theorist, with special interest in development economics, and a professor of economics at Cornell University -- discovered the complexity of applying economic models to the real world. Effective policymaking, Basu learned, integrates technical knowledge with political awareness. In this book, Basu describes the art of economic policymaking, viewed through the lens of his two and a half years as CEA. Basu writes from a unique perspective -- neither that of the career bureaucrat nor that of the traditional researcher. Plunged into the deal-making, non-hypothetical world of policymaking, Basu suffers from a kind of culture shock and views himself at first as an anthropologist or scientist, gathering observations of unfamiliar phenomena. He addresses topics that range from the macroeconomic -- fiscal and monetary policies -- to the granular -- designing grain auctions and policies to assure everyone has access to basic food. Basu writes about globalization and India's period of unprecedented growth, and he reports that at a dinner hosted by Prime Minister Manmohan Singh, President Obama joked to him, "You should give this guy some tips" -- "this guy" being Timothy Geithner. Basu describes the mixed success of India's anti-poverty programs and the problems of corruption, and considers the social norms and institutions necessary for economic development. India is, Basu argues, at an economics crossroad. As CEA from 2009 to 2012, he was present at the creation of a potential economic powerhouse.
