**Innovative Fiscal Policy and Economic Development in Transition Economies (Routledge Studies in the Modern World Economy)** Aleksandr V Gevorkyan

This book explores the problems of fiscal policy as an instrument of economic and social development in the modern environment, primarily focusing on the transition economies of Eastern Europe, Caucasus, and Central Asia. Evaluating the transformational experience in these countries, this work meets a need for a critical analysis in the aftermath of the 1990s market liberalization reforms, of current trends and to outline the roadmap for future development.
