The Trojan Sea

Richard Herman

The Trojan Sea Richard Herman

There is a new order to the world. The first female president of the United States sits in the White House. Monster corporations wield the real global power. And all the old rules have changed.

From Richard Herman, whom Clive Cussler calls "one of the best adventure writers around" and the Denver Post places "on a par with Tom Clancy," comes a spellbinding new novel of intrigue, politics, deception, murder, and the bloody manipulation of world events for the sake of pure profit.

Beautiful and brilliant, Lee Justine (L.J.) Ellis is, at thirty-eight, the youngest CEO ever of a major oil corporation. Ruthless, charismatic, greedy, and philanthropic, she is a strange dichotomy of positive and negative, a driven crusader on a god-given mission. And now she owns something worth killing for: secret knowledge of vast, untapped reserves of oil right in America's backyard ... beneath the territorial waters of a sworn enemy ... Cuba. It is a prize she must capture at any cost.

Lieutenant Colonel Mike Stuart is the most average of men. A military functionary toiling in bureaucratic tedium, he could never hope to live up to the legendary reputation of his father -- one of the great air force fighter pilots -- so he is resigned to serving his country in his own quiet way. But in his daily war of figures and on-screen data, Stuart notices an unusual pattern of oil tanker movement and he dutifully reports it to his superiors. Suddenly Mike Stuart's ordinary life starts spinning dangerously out of control.

A series of seemingly random "accidents" and narrow escapes -- all explainable and unremarkable, except for the number of them -- puts him on the alert. But when his ex-wife and her lover are killed in Stuart's car, he realizes that his growing paranoia is frighteningly justified. There are powerful forces closing in on one inconspicuous man, trapping him in the wide flung net of a devastating conspiracy that could brutally change the political face of a hemisphere, bring a government down in flames and chaos ... and take the life of America's's president.

Now Mike Stuart is being called upon to defend his nation in ways he never imagined. And his sole chance for success -- and survival -- to become something he has never been: a warrior.
