This is an investigation of arts and aesthetics in their widest senses and experiences, presenting a variety of perspectives which range from the metaphysical to the political. Moving beyond art as an expression of the inner mind and invention of the individual self, the volume bridges the gap between changing perceptions of contemporary art and aesthetics, and maps globalizing currents in a number of contexts and regions.

The volume includes an impressive variety of case studies offered by established leaders in the field and original and emerging scholarly talent covering areas in India, Nepal, Indonesia, Iran, Russia, Rwanda, and Germany, as well as providing transnational or diasporic perspectives. From the contradictory demands made on successful artists from the south in the global art world such as Anish Kapoor, to images of war and puppetry created by female political prisoners, the volume compels creative and political interpretations of the ever-changing and globalizing terrain of arts and aesthetics.
