## **Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students**

Jenny Olive

This friendly self-help workbook covers mathematics essential to first-year undergraduate scientists and engineers. In the second edition of this highly successful textbook the author has completely revised the existing text and added a totally new chapter on vectors. Mathematics underpins all science and engineering degrees, and this may cause problems for students whose understanding of the subject is weak. In this book Jenny Olive uses her extensive experience of teaching and helping students by giving a clear and confident presentation of the core mathematics needed by students starting science or engineering courses. The book contains almost 800 exercises, with detailed solutions given in the back to allow students who get stuck to see exactly where they have gone wrong. Topics covered include trigonometry and hyperbolic functions, sequences and series (with detailed coverage of binomial series), differentiation and integration, complex numbers, and vectors.

### **From reader reviews:**

#### **Richard Byrnes:**

Nowadays reading books become more than want or need but also turn into a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the particular information inside the book that improve your knowledge and information. The info you get based on what kind of guide you read, if you want have more knowledge just go with education and learning books but if you want sense happy read one along with theme for entertaining for example comic or novel. The particular Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students is kind of book which is giving the reader unstable experience.

#### **Rex Pelkey:**

This Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students is great reserve for you because the content that is full of information for you who always deal with world and also have to make decision every minute. This particular book reveal it data accurately using great plan word or we can point out no rambling sentences included. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but tricky core information with wonderful delivering sentences. Having Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students in your hand like finding the world in your arm, details in it is not ridiculous 1. We can say that no reserve that offer you world inside ten or fifteen tiny right but this e-book already do that. So , it is good reading book. Heya Mr. and Mrs. hectic do you still doubt that?

#### **Kenneth Sigler:**

Do you like reading a guide? Confuse to looking for your chosen book? Or your book had been rare? Why so many issue for the book? But any kind of people feel that they enjoy with regard to reading. Some people likes studying, not only science book and also novel and Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students or others sources were given information for you. After you know how the truly amazing a book, you feel would like to read more and more. Science book was created for teacher or even students especially. Those publications are helping them to add their knowledge. In other case, beside science e-book, any other book likes Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students to make your spare time considerably more colorful. Many types of book like this one.

#### **Karen Morris:**

Many people said that they feel fed up when they reading a reserve. They are directly felt the item when they get a half parts of the book. You can choose the particular book Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students to make your own personal reading is interesting. Your own personal skill of reading ability is developing when you just like reading. Try to choose easy book

to make you enjoy to study it and mingle the sensation about book and reading through especially. It is to be first opinion for you to like to open a book and read it. Beside that the guide Maths: A Student's Survival Guide: A Self-Help Workbook for Science and Engineering Students can to be your brand-new friend when you're really feel alone and confuse with the information must you're doing of that time.
