Freaks, Frequencies, and Hand Signs: A Schizo Manifesto Eric Durchholz

How much do you know about Schizophrenia? Have you seen what goes on in the mind of a person afflicted with this disorder? There have been countless documentaries about the subject and articles written about the nature of this devastating illness. It is generally taboo to let those afflicted speak out for themselves. This book will give you an inside look into a schizophrenic mind. To read the words and feel the anguish, the pain and the suffering that goes on in their daily lives. The things they see can be terrifying. I have been invited to publish this on behalf of the author as it had been sent to me unsolicited. More manifestos have come. They appear in my e-mail inbox for me to publish. Delving into these minds is dangerous. You must keep your safety locks on. You must keep the paranoia from overwhelming you. While most of these manifestos contain incoherent ramblings, there are touches of dead-on humor, flashes of brilliance and scary societal observations. Just remember, it's all in your head.
