Crafting, and implementing a research paper or a thesis requires an outrageous creative prowess and flawless writing skills. This book comprehensively teaches students the technicalities behind thesis writing. It shows how well-written journals and dissertations can help earn accolades in conferences or presentations.

The book discusses elements to organize thesis paper in terms of numbering and referencing text. The book is also equipped with text-support materials such as figures, tables and mathematical equations. Some peripheral issues such as certificate and copyright have also been discussed in detail. Apart from that, the book is incorporated with a specimen copy of a thesis and a research paper. Intended for the researchers and fellow students, the book is equally beneficial for the engineers and scientists.
