Of the approximately fifty percent of Americans who believe in UFOs, a fraction are devotees of one of the numerous UFO-based new religious movements. The Unarius Academy of Science is one of the oldest of these groups. Founded in 1954 by "Cosmic Visionaries" Ruth and Ernest Norman (also known, respectively, as Archangels Uriel and Raphael), Unarius is devoted to teaching the all-encompassing Uranian Science. Combining elements of pop psychology, new age thought, and science fiction, the Science asks its students to channel messages from the infinitely intelligent Space Brothers and to heal themselves through the practice of past-life therapy. Unarians await the arrival of spaceships, manned by the Space Brothers, that will bring to earth advanced intergalactic technology that will benefit all humankind. Tumminia has been conducting research on Unarius for over a decade - attending meetings, interviewing members, and studying official Unarian literature and videos. Here she offers an inside look at this fascinating movement. She pays particular attention to the ways Unarians adapt when their prophecies - and particularly their prediction that the Space Brothers would land in 2001 - don't materialize. This is the first in-depth study of any UFO religion.
