We're a generation raised on instant: Instant formula. Disposable diapers. Satellite TV. GPS navigation. Online check-in. Automatic everything. We're always plugged in and wired. We're accustomed to having answers at the snap of our fingers. We're used to being in control. How does this affect our communication with God? This is the question iFaith seeks to answer. What has life at warp speed done to our souls? Has faith been replaced with a false sense of security? Has the digital and technological revolution made us more impatient with the God who delights in making His people wait? iFaith is a unique look at prayer and faith in the twenty-first century, calling us back to a place of rest and silence and peace with God.
