Geeky transsexual student Lisa Calder faces a new body, surgical complications, school bullies, bureaucracy, new relationships, and a robotics competition in her third year at university. Thankfully, she has “The Clan,” her nerdy friends that help one another get by. Together they take on life, having fun while exploring sexual orientations, fetish interests, and relationship models that challenge each other’s biases and prejudices. As the year passes, Lisa blossoms into who she’s always wanted to be: herself.

Contains some adult situations not intended for minors, including sexual activity, polyamory, BDSM and ageplay/diaper fetishism. Also, some sections get technical, particularly the robotics project—some have skipped those sections, some have found them overwhelming, but the nerds and the sapiosexuals will love them.
