## **Ética protestante y el espíritu del capitalismo (Clásicos del pensamiento económico y social) (Spanish Edition)** Max Weber

¿Cómo ha sido posible que la técnica racional y el cálculo sistemático, puestos al servicio de una búsqueda incesante de la rentabilidad y la eficiencia, hayan devenido un fin en sí, un valor absoluto, hasta convertir la sociedad y el mismo mundo en un orden impersonal, al que el hombre de negocios y el profesional de nuestros días deben consagrar su vida? ¿Por qué esta mentalidad y este orden, típicos de la moderna civilización occidental, han surgido justamente en este espacio cultural, y además en una concreta época de su desarrollo histórico? Responder a estas preguntas mediante un brillante y original análisis histórico-social, que desentraña las complejas conexiones entre la cultura económica moderna y el sistema de creencias religiosas y valores del ascetismo protestante, es el objeto de este libro, el más conocido de Max Weber (1864-1920). Pasados más de cien años desde su primera publicación, este ensayo no solo es el texto más leído, famoso e influyente de la historia de la sociología, sino también un clásico del pensamiento social y de la cultura moderna.
