**How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers** Joseph P. Kennedy, Wayne H. Watkins

**A straightforward guide to inventing, patenting, and technology commercialization for scientists and engineers**

Although chemists, physicists, biologists, polymer scientists, and engineers in industry are involved in potentially patentable work, they are often under-prepared for this all-important field. This book provides a clear, jargon-free, and comprehensive overview of the patenting process tailored specifically to the needs of scientists and engineers, including:

- Requirements for a patentable invention
- How to invent
- New laws created by President Obama's 2011 America Invents Act
- The process of applying for and obtaining a patent in the U.S. and in foreign countries
- Commercializing inventions and the importance of innovation

Based on lecture notes refined over twenty-five years at The University of Akron, *How to Invent and Protect Your Invention* contains practical advice, colorful examples, and a wealth of personal experience from the authors.

**From reader reviews:**

**Helen Wright:**

What do you about book? It is not important with you? Or just adding material when you really need something to explain what you problem? How about your time? Or are you busy particular person? If you don't have spare time to perform others business, it is make one feel bored faster. And you have extra time? What did you do? All people has many questions above. They have to answer that question due to the fact just their can do this. It said that about guide. Book is familiar in each person. Yes, it is appropriate. Because start from on guardería until university need this How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers to read.

**Alyson Ward:**

Information is provisions for anyone to get better life, information these days can get by anyone on everywhere. The information can be a information or any news even a huge concern. What people must be consider when those information which is from the former life are challenging to be find than now is taking seriously which one would work to believe or which one often the resource are convinced. If you receive the unstable resource then you buy it as your main information you will have huge disadvantage for you. All of those possibilities will not happen within you if you take How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers as your daily resource information.

**Jeffrey Baptiste:**

Are you kind of busy person, only have 10 or even 15 minute in your day to upgrading your mind proficiency or thinking skill even analytical thinking? Then you have problem with the book when compared with can satisfy your short time to read it because all of this time you only find e-book that need more time to be read. How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers can be your answer given it can be read by you actually who have those short extra time problems.

**Sarah Porter:**

This How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers is completely new way for you who has curiosity to look for some information given it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or else you who still having little digest in reading this How to Invent and Protect Your Invention: A Guide to Patents for Scientists and Engineers can be the light food in your case because the information inside this book is easy to get by means of anyone. These books acquire itself in the form which is reachable by anyone, yes I mean in the e-book type. People who think that in reserve form make them feel drowsy even dizzy this guide is the answer. So there isn't any in reading a reserve especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss that! Just read this e-book variety for your better life and also knowledge.
