# Building A Global Information Assurance Program

*Raymond J. Curts, Douglas E. Campbell*  
Operational Concepts

Because of their extensive and diverse backgrounds, the authors bring a unique perspective to current IT issues. The text presents their proprietary process based on the systems development life cycle (SDLC) methodology specifically tailored for an IA program. This process is a structured, cradle-to-grave approach to IA program development, from program planning and design to implementation, support, and phase out. Building a Global Information Assurance Program provides a proven series of steps and tasks that you can follow to build quality IA programs faster, at lower costs, and with less risk.
