Human Gross Anatomy

Anthony B. Olinger

Human Gross Anatomy Anthony B. Olinger

Detailed enough for use as an atlas and concise enough for efficient review, Human Gross Anatomy provides concentrated coverage of anatomy that promotes learning rather than rote memorization. Clear, high quality cadaveric photographs and explanatory diagrams are presented side by side with to-the-point bulleted explanations to help anatomy students develop a true understanding of each anatomical structure.

Addressing current curricula trends with a systemic approach to anatomy, consistently covered within regional chapters to reflect the structure used in dissection labs, this practical, user-friendly book highlights important muscle information through “Action Boxes” and uses color-coded labels for origin, insertion, and innervation. The book is ideal for anatomy students in medical, osteopathic, dental, physical therapy, chiropractic, physician assistant, and nurse practitioner programs.

From reader reviews:

Kenneth Williams:

As people who live in the actual modest era should be up-date about what going on or details even knowledge to make them keep up with the era that is certainly always change and move forward. Some of you maybe can update themselves by studying books. It is a good choice for you but the problems coming to an individual is you don't know what one you should start with. This Human Gross Anatomy is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and wish in this era.

Bobby Miller:

Information is provisions for those to get better life, information these days can get by anyone at everywhere. The information can be a expertise or any news even restricted. What people must be consider while those information which is in the former life are difficult to be find than now's taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you have the unstable resource then you buy it as your main information you will have huge disadvantage for you. All those possibilities will not happen in you if you take Human Gross Anatomy as the daily resource information.

Melissa Jackson:

This Human Gross Anatomy is great reserve for you because the content which can be full of information for you who always deal with world and still have to make decision every minute. This book reveal it data accurately using great organize word or we can claim no rambling sentences in it. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but tough core information with splendid delivering sentences. Having Human Gross Anatomy in your hand like getting the world in your arm, details in it is not ridiculous a single. We can say that no e-book that offer you world within ten or fifteen moment right but this reserve already do that. So , this is good reading book. Hello Mr. and Mrs. busy do you still doubt in which?

Ashley Gibson:

As we know that book is important thing to add our information for everything. By a publication we can know everything we would like. A book is a list of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This book Human Gross Anatomy was filled in relation to science. Spend your extra time to add your knowledge about your technology competence. Some people has distinct feel when they reading any book. If you know how big selling point of a book, you can experience enjoy to read a e-book. In the modern era like right now, many ways to get book you wanted.
