**Have you been eying a beautiful girl who you would like to ask out? Are you afraid she may reject you? Do you struggle with low self-esteem? If you really are serious about making her your girlfriend, I can help!**

In my newest book, “How To Ask a Girl Out: Proven Ways On How To Get A Girlfriend,” I give you tips on how to:

- Overcome your fears
- Approach her with confidence
- Decide where you’ll take her out
- Not trip over every word that comes out of your mouth
- And much, much more.

### **Ways to ask a girl out from the book:**

#### **Give her compliments**

*If this is the first time you are talking to her, you don’t want to be too forward. A good compliment to give someone new is to maybe tell her you like the perfume she is wearing and ask her what scent it is. If you have seen her and spoken to her before and you have noticed that she has changed her hair style or if she has colored her hair, tell her it looks very nice...*

#### **Have manners**

*Make sure you open the door for her. Even when you go to pick her up on the date later on, be a gentleman and open the car door for her. Be polite. Don’t just talk about yourself, you want to get to know her; women love to be in the spotlight and feel like they can talk about whatever they want to. Be sweet, but not too sweet. Don’t send her flowers before the date, or before you have really gotten to know her yet. Women like somewhat of a chase.*

#### **What you are looking for**

*Make sure you know just what you are looking for. Are you looking for a lifetime partner? Or, are you looking for just a fling? Find out exactly what she wants, also. If she just had a break up with a long term*

*boyfriend. I'm sure she will not be looking for a lifetime partner at the moment. You don't want to be the rebound guy. If you want something more than just a fling with this person, then you need to wait before getting too attached to her...*

## **More tips from the book on how to ask a girl out**

### ***Be Confident***

*Don't think negatively. If you have an open mind that she will say yes, that's great. That's what you want. If you are standing there thinking "she would never go out with someone like me," chances are she can read through you and no, she will never go out with you. Think positively.*

*As you can see, the tips I offer on asking a girl out are straight to the point. You won't be wasting your time sifting through a bunch of useless psychological jargon. NO! You're going to be learning from condensed information exactly how to find the right girl and ask her out.*

### **Here are a few other things you are going to learn from the book:**

- Which questions are acceptable to ask, and which are not
- Things that women can't stand that men do when they are asking them out
- The importance of personal hygiene
- Where to take her on an exciting date without spending a fortune
- How to get her to say yes!
- And much more...
