The Devil's Delusion: Atheism and its Scientific Pretensions David Berlinski

Militant atheism is on the rise. In recent years Richard Dawkins, Sam Harris, Daniel Dennett, and Christopher Hitchens have produced a steady stream of best-selling books denigrating religious belief. These authors are merely the leading edge of a larger movement that includes much of the scientific community.

In response, mathematician David Berlinski, himself a secular Jew, delivers a biting defense of religious thought. *The Devil's Delusion* is a brilliant, incisive, and funny book that explores the limits of science and the pretensions of those who insist it is the ultimate touchstone for understanding our world.
